To: Jan Venter &lt;infokerk@global.co.za&gt;

A few years ago our friends at Somerset West United Church recommended WinkerK to us. At Randpark Ridge United Church, we have seen a dramatic improvement in our communication since we started using WinkerK. We are able to send e-mails as well as sms messages to our entire database or to specific groups. We are able to capture on the database the involvement of our members in Life groups as well as other areas of service. Every week we e-mail a link to our bulletin and prayer sheet which has been uploaded to our website. The support that we get from Jan and Jandri Venter is fantastic and they continue to do updates with new features including a secure online version of the database. The cost is affordable even for a small congregation. We would highly recommend WinkerK to any Church that is looking for not just a record of members but a powerful communication tool.
